NABA

NABA, Nuova Accademia di Belle Arti is an internationally renowned Academy focused on arts and design: it is the largest Academy of Fine Arts in Italy and the first one to have been recognised by the Italian Ministry of University and Research (MUR), back in 1981.

With its two campus in Milan and Rome, it currently offers academic degrees equivalent to first and second level university degrees in the Communication and Graphic Design, Design, Fashion Design, Media Design and New Technologies, Set Design, and Visual Arts Areas, as well as PhDs and Special Programmes, that allow students to continue their studies either within Academies or Universities in Italy and abroad.

The programmes are open to students interested in design culture and artistic experimentation: they come from many different Italian regions and around 100 foreign countries, with the most different backgrounds.

NABA's interdisciplinary methodology is the result of a strong inclination towards innovation and a dynamic interaction with the artistic and professional context. In fact, design methods are at the core of the didactic activities, allowing an idea to relate with a real social and market context, and to become an actual product that can be shared, also thanks to the continuously updated expertise of the faculty, that includes professional practitioners and artists.

NABA is a multi-awarded and internationally renowned institution. In fact, it has been named as the best Italian Academy of Fine Arts in the top 100 worldwide in Art & Design field in QS World University Rankings® by Subject.

SEMESTER ABROAD PROGRAMMES

The NABA Semester Abroad Programmes are designed to suit the needs of students sharing the wish to have an international study experience and spending a term at the Academy's campus in Milan, with its dynamic creative system and renowned excellences, or in Rome, a city that blends a unique historical heritage with a contemporary artistic and cultural production. They will join classes with students coming from all over the world and will have the opportunity of taking part to courses in different fields, such as communication and graphic design, design, fashion design, media design and new technologies, set design, visual arts.

dedicated and integrated academic calendars

NABA offers the possibility to choose between two different academic calendars to meet students' needs and academic requirements.

The Dedicated Academic Calendar follows the US academic cycle, and the academic year goes from September to May for the Fall and Spring semesters, and 5 weeks from May to June for the summer session. Resulting Dedicated Programmes during the academic year give students the chance of partially customising their curricula (study plans)

that will become effective only after receiving NABA formal approval. For the study plans to be approved, they must be sent via e-mail to semesterabroad@naba.it. The Semester Abroad Programmes with Dedicated Calendar are available in both Milan and Rome campuses, while the summer session provides the perfect short-term study abroad solution in Rome. Classes are held in English.

The Integrated Academic Calendar follows the Italian and main EU countries academic cycle, and the academic year goes from September to July. Resulting Integrated Programmes are not customisable but allow students to join the regular classes and study path alongside with NABA degree students, by choosing between Spring and Fall semesters and 2nd and 3rd year according to the academic level of origin. The Semester Abroad Programmes within Integrated Calendar are available in both Milan and Rome campus in English and Italian languages.
