

MADE IN NABA® MADE IN NABA® MADE IN NABA®

INTERNATIONAL ACADEMY
OF ART & DESIGN

NABA

NUOVA ACCADEMIA
DI BELLE ARTI

learning by thinking

Our programmes constitute a continuous sequence of multidisciplinary experiences generating research and projects in the artistic and professional contexts of current trends.

learning by doing

Ideas become projects, strategies, techniques and technologies, turning into prototypes and in some cases developing into products for the companies we work with.

teaching by learning

Learning by doing is also teaching by learning and this has changed the relationship between lecturers and students: classes and groups have transformed into work teams that liaise continuously with companies and research institutes. Experience forms the methodological skeleton through which innovation insinuates itself and guides us in planning the future together.

*Italo Rota,
NABA Scientific Advisor from 2013 to 2024*

1st Italian Fine Arts Academy worldwide
Top 50 QS World University Rankings® by Subject Art & Design 2026

NABA is the 1st Italian Fine Arts Academy worldwide and 41st among the Top 50 for QS World University Rankings® by Subject Art & Design. The largest in Italy, for more than 40 years it has been at the forefront of creative education. With campuses in Milan, Rome and London, it offers internationally recognised undergraduate and postgraduate degrees in the fields of fashion, design, communication, visual and multimedia arts, new technologies, and set design, alongside PhDs, Special Programmes, and a Management Hub. The vision of **NABA, Nuova Accademia di Belle Arti** is grounded in an interdisciplinary approach that combines research, experimentation and close engagement with leading professional networks, addressing the defining challenges of our time – from AI to sustainability and innovation.

*Through Artistic Intelligence,
we nurture people to design a new tomorrow.*

LABORATORIES

ECOLOGICAL AND CREATIVE TECHNIQUES AT THE GRAPHIC DESIGN LAB

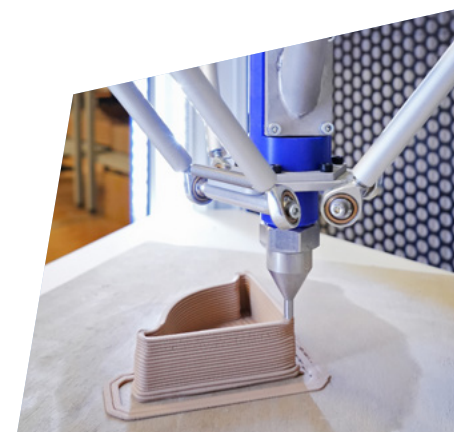

**Multi-support / Editorial design /
Large format printing / Prespaced
lettering / Labels / Mimaki Plotter /
UV-LED technology**

A space to experiment with ecological printing techniques, editorial design and binding. Thanks to a multifunction machine, a Mimaki plotter and an electric cutting machine, students can print on different materials and formats.

ZEROWASTE CULTURE IN THE DESIGN LABS

**3D PLA Printing / Clay 3D Printing /
Laser Cutting / CNC Milling machine /
Thermoforming / Turnery / Carpentry /
Biomaterials**

Here, the design of models and prototypes is carried out with state-of-the-art tools and skilful artisanal dexterity. Research, innovation and sustainable design practice create room for innovative upcycling, an essential part of the present and future industry.

INNOVATION AND SUSTAINABILITY IN THE FASHION AND TEXTILE DESIGN LABS

**Natural dyeing / Printing and silk
screen printing / Eco printing /
Modelling with LECTRA / Knitwear with
Shima Seiki / Textile heat-welding with
Framis / Water Recycling System /
Botanical dyeing garden / Sneakers
lab / Weaving with jacquard TC2**

With professional machines and constant research on materials and techniques, these labs provide full-scale knowledge of the production chain, for an increasingly sustainable approach to the fashion system.

CUTTING-EDGE ENVIRONMENTS IN THE MEDIA DESIGN AND NEW TECHNOLOGIES LABS

**Film Studios / Photo Studio / Post
Production Suite / Virtual Studio /
Motion Capture / AI / Performing
Media Arts**

With cinema sets and technologies, VFX, Virtual Production and Game, our labs are avant-garde in the design of immersive content for cinema, animation and multimedia installations.

EXPERIMENTATION AND ARTISTIC REPRESENTATION IN THE VISUAL ARTS LABS

**Engraving / Chalcography / Painting /
Sculpture and art installations /
Drawing / Photography / Video
applications and new media / Display**

The teaching of experimental artistic practices and techniques in the labs focuses on the research of personal and new languages, which adds curatorship, art critique, editorial direction and museum management to the art profession.

AI AND NEW LANGUAGES OF CREATIVITY

At NABA, AI is part of an integrated creative ecosystem: within courses and through laboratories such as Giulietta Lab, students combine artistic and design research, transforming it into an active cultural practice. NABA also has an AI Commission, which explores its ethical, anthropological and pedagogical implications, and the X-Lab AI, which coordinates educational and transdisciplinary initiatives.

CRAFTSMANSHIP AND INNOVATION AT THE SET DESIGN LAB

**Model building / Prototyping /
Sampling / Handcraft techniques /
Eco-sustainable materials**

A place of continuous exchange where traditional knowledge meets the use of innovative materials and techniques. The students have the opportunity to share their expertise and create small artifacts in the fields of set design, props, models and costumes.

CAMPUS LIFE

student life

Every year a dedicated office proposes to the students extra-curricular activities such as guided tours, events, sports as well as cultural, commercial and health benefits. Furthermore, thanks to the Buddy Project, additional support to international students is provided.

NABASHOPPING.COM is the
online shop for Made in NABA
products: a collection of clothing
and accessories for study, work
and leisure time.

library

On campuses, consultation and borrowing services are available for printed and digital volumes, theses archives and sector-related magazines and access to some of the most prestigious online databases (BoF, JSTOR, WGSN, Vogue Archive). The NABA Library is also among the first in Italy to integrate AI into its online catalogue. In Milan, a display of samples of innovative materials and papers is open to the users. In Rome, a small Cinema Room allows users to have access to streaming content from major online platforms.

housing

NABA supports students and families through the important journey to Milan, Rome and London by offering a network of selected partners and providers, such as Milanhousing and Campus X, helping them find the most suitable accommodation solution for every need, turning change into a positive and mindful experience. For more information, please visit the NABA website.

STUDY ADVICE

INDUSTRY AND CAREER

The Industry Relations and the Career Service and Alumni Relations offices represent a bridge between the Academy and the working world during the study path, involving students in innovative collaborations and projects with leading companies in different fields, through many initiatives such as Talent Harbour, Recruiting Day, and Design Marathon.

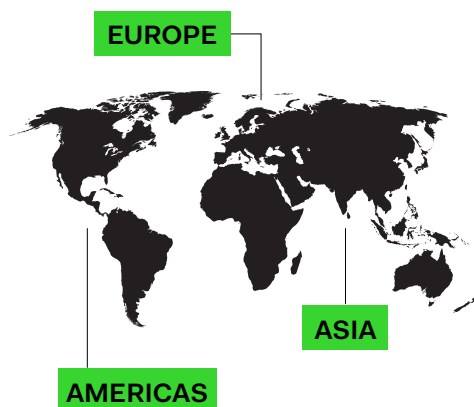

Thanks to a constantly expanding network of partners, the offices value the skills of each student by promoting internships and job opportunities in line both with their attitudes and the demands of the job market.

And afterwards?

Employment rate within 1 year after graduation

92%

Source: 2026 Graduate Employment Survey conducted by Ipsos Doxa, a leading market research company, among NABA BAs, MAs and Academic Masters' graduates one year after graduation.

NABA collaborates every year with more than 900 brands for projects, partnerships, internships and placement, among others:

NABA, Nuova Accademia di Belle Arti is part of Galileo Global Education, a leading international provider of higher education with an offer that spans from applied arts, fashion, design and digital/Internet to business and medicine. Through its network of 70 schools, the group is present in over 120 campuses in 20 countries around the world and has 300,000 enrolled students. Galileo is Europe's largest higher education group, in terms of both geographical spread and breadth of course offering. Its ambition is to be the world education leader in innovation, creativity, arts and culture - driven by students' employability, agility and impact.
