# NABA

**NABA, Nuova Accademia di Belle Arti** is an internationally renowned Academy focused on arts and design: it is the largest Academy of Fine Arts in Italy and the first one to have been recognised by the Italian Ministry of University and Research (MUR), back in 1981.

With its two campus in Milan, Rome and from A.Y. 2026/27 London, it currently offers academic degrees equivalent to first and second level university degrees in the Communication and Graphic Design, Design, Fashion Design, Media Design and New Technologies, Set Design, and Visual Arts Areas, that allow students to continue their studies either within Academies or Universities in Italy and abroad.

The programmes are open to students interested in design culture and artistic experimentation: they come from many different Italian regions and more than 100 foreign countries, with the most different backgrounds.

NABA's interdisciplinary methodology is the result of a strong inclination towards innovation and a dynamic interaction with the artistic and professional context. In fact, design methods are at the core of the didactic activities, allowing an idea to relate with a real social and market context, and to become an actual product that can be shared, also thanks to the continuously updated expertise of the faculty, that includes professional practitioners and artists.

NABA is a multi-awarded and internationally renowned institution, named as the best Italian Academy of Fine Arts in the top 100 worldwide in Art & Design field in QS World University Rankings® by Subject.

# ERASMUS+ AND INTERNATIONAL EXCHANGE

NABA is committed to the development and promotion of opportunities for students to study and work abroad as part of their academic path. For both the incoming and the outgoing exchange students, programmes like Erasmus+ and International Exchange are the perfect chance for an amazing educational and cultural experience. Studying in a foreign country will open minds to new perspectives, that go far beyond grades.

The Academy welcomes international students in its campus in Milan, a city with a dynamic creative system and renowned excellences, or in its campus in Rome, a city that blends a unique historical heritage with a contemporary artistic and cultural production.

## academic calendar

The Academic Calendar for the Erasmus+ and International Exchange programmes follows the Italian and main EU countries academic cycle and the academic year goes from September to July.

Erasmus+ and International Exchange programmes are not customisable but allow students to join the regular classes and study paths alongside NABA degree students. Combining classes from different courses is not possible (e.g. choosing some courses from second year of the BA in Fashion Design and some courses from second year of the BA in Graphic Design and Art Direction).

Students can choose between Undergraduate and Postgraduate programmes depending on their study level.

For the Undergraduate programmes (Bachelors of Arts) students can take part to Fall or Spring semester of the 2<sup>nd</sup> year and only to Fall semester of the 3<sup>rd</sup> year.

For the Postgraduate programmes (Two-year Masters of Arts) students can take part to Fall or Spring semester of the 1<sup>st</sup> year and only to Fall semester of the 2<sup>nd</sup> year.

# INFORMATION

## application deadlines

- Fall Semester (starting in September 2026): from May, 4<sup>th</sup> to May 15<sup>th</sup>, 2026;
- Spring Semester (starting in March 2027): from October 12<sup>th</sup> to October 22<sup>nd</sup>, 2026.

## requirements

There must be a valid agreement between the students' University and NABA, to join the exchange programmes in the study field of choice. Check the Academy's current agreements on the webpage dedicated to its partner institutions list. If students' Home Institution does not have a formal partnership agreement with NABA, it is not possible to consider their application at this time.

Students should have completed at least the first year of a university degree in one of NABA partner universities in a subject area relevant to the course delivered at the Academy – evidence of this will be required at the time of application. This catalogue can be referred to for checking the list of courses available to exchange students.

Students have to provide evidence of their language proficiency, according to the chosen track (English or Italian).

The submission of language proficiency evidence will be taken into consideration during the evaluation of the application.

No specific certificate is required, for clarifications please get in contact with NABA International Exchanges Office.

The submission of a language certification is compulsory for non-UE students, for whom the Italian Ministry of Education set a new regulation to come and study in Italy. If students have no linguistic certification, NABA will be available to test their language level with its internal Language Centre.

## how to apply

Before submitting the online application, Home Institution should send the students nomination by e-mail to NABA International Exchanges Office.

Afterwards, students will have to proceed with the online application at <https://www.naba.it/en/student-services/erasmus-international-exchange-programmes>, providing the following documentation:

- Application Form or online application at <https://www.naba.it/en/student-services/erasmus-international-exchange-programmes>;
- Personal Statement;
- Passport-size photograph;
- If you choose the English track, evidence of English language proficiency (B2 or higher) or if you choose the Italian track, Italian language proficiency (B2 or higher). No specific certificate required, for clarifications please get in contact with NABA International Exchanges Office;
- Portfolio of projects (if the portfolio is available as a web link, it can be included in the application form. If not, it can be uploaded using our Portfolio Upload task – maximum size 8MB. Please note: we do not accept paper portfolios or portfolios on CDs.);
- Enrolment Certificate issued by Home Institution specifying the major and the academic year attended.

After receiving the application form, it will be evaluated by NABA International Exchanges Office, in collaboration with the Course Leader of the selected course of study.

Applicants will receive a feedback after the evaluation of the required documents along with a confirmation e-mail containing various information, including start and end dates, contact person details, practical information and so on.

Please consider that all incoming applications are subject to NABA availability during the requested semester.

## general info

Students are not expected to pay tuition fees to NABA, as their fees are directed to their Home Institution and not to their Host Institution; however, they are expected to undertake their living expenses (e.g. accommodation, travel costs, insurance coverage) where applicable, costs for any materials necessary for the development of projects (e.g. fabrics, cardboard, stationery materials).

If students are citizens of a country outside the European Economic Area (EEA) and Switzerland, they will need a Student Visa, for which they should apply in early advance before leaving their home country.

Here below a useful link <http://vistoperitalia.esteri.it>

Also, in order to apply for Visa, extra-European students will be required to register to the platform "University".

NABA International Exchange Office will be at disposal to provide a step-by-step guideline.

Students in possession of a permit of stay should consider the title must be valid prior departure and all along all the mobility period. CHECK WITH STUDENTS SUPPORT.

Within eight days from arrival, extra-european students will have to apply for permit of stay: support sessions with NABA Registration Office will be organised for this purpose.

Evaluation outcomes shall be expected five weeks after the end of the application procedure timeframe.

## academic credits

NABA Academic System is based on CFA credits (1 CFA = 1 ECTS): 1 CFA credit corresponds to approximately 25 total learning hours, including self-directed study. At the end of their exchange period, students will receive a transcript with credits for all the subjects successfully completed.

Upon receiving the transcript of records, Home Institutions will be able to recognise the entire educational path spent at NABA and ensure credits and grades to the student.

## housing

Please contact NABA Housing Office for support in finding an accommodation:
